

Proposed amendment to Town of Round Hill Water Ordinance:

Article VII
Billing

7.10 The town council shall, at its discretion, adopt by ordinance, appropriate fees and rates to be set forth on schedules and incorporated by reference into this Article. At its discretion, the town council may amend the fees set forth on the schedules and upon adoption, such amended schedules shall be incorporated as part of the Article as if fully set forth herein. Bills for metered water service will be rendered regularly depending upon the class and quantity of service rendered.

Proposed amendments to Town of Round Hill Sewer Ordinance:

ARTICLE IX
Billing

10.1 Billing for sewer service will be at the rate established by the Town Council and will be based on water usage as determined by water meter readings. If a private well, or other water source is used, the Town will install a meter, at the customer's cost, between the water source and the building. Readings on the meter will serve as the means for computing sewer service charges. At its discretion, the Town may install a meter, at the customer's cost, directly on the sewer line to measure flow, in which case, the sewer meter readings will serve as the basis for billing. ~~Sewer customers are subject to the billing regulations in the Town Water Ordinance and any associated penalties are applicable to provision of sewer services.~~

10.2 The town council shall, at its discretion, adopt by ordinance, appropriate fees and rates to be set forth on schedules and incorporated by reference into this Article. At its discretion, the town council may amend the fees set forth on the schedules and upon adoption, such amended schedules shall be incorporated as part of the Article.

10.3 . Bills for sewer service will be rendered regularly depending upon the class and quantity of service rendered. Sewer customers are subject to the billing regulations in the Town Water Ordinance and any associated penalties are applicable to provision of sewer services.
